ABOUT US

A 100-year history of quality. A culture of service to meet today’s most demanding requirements. And a vision of the future to be ready for what’s next. That’s the Ideal Tridon Group.

As part of the Ideal Tridon Group, Clamp SRL’s products are made to connect and support pipes, tubes, and hoses that convey gases, liquids, and electricity. We cover the entire EMEA region, supported by our distribution center in Milan, Italy. Clamp SRL is one of the world’s leaders in clamping and cabling solutions. At Clamp SRL, whether it’s the performance of our products or the responsiveness of our service, connections are at the heart of what- we do.

Hardware	Municipalities	
Heavy Duty Equip/Turbo/Forced Air	Petroleum, Chemical & Bulk Transfer	
Heavy Equipment	Pipelines	

MARINE INDUSTRY

The Marine industry uses stainless steel clamps for saltwater exposure of sea-going vessels, pleasure boating, and other water transportation needs. It requires corrosion-resistant stainless steel 304 or 316 for saltwater applications of piping and hose fittings, cable bundling, cable identification, pile wrap, wood posts, and other general-purpose repairs. Clamp SRL's products are designed to meet the harsh environmental conditions the marine industry demands.

General Purpose Clamps

Band-It Band[®], Buckles, Ties, & Tools

MARINE PRODUCTS

Clamp SRL sells wide-ranging products that support the marine industry including general purpose and speciality clamps, banding, tools, and accessories to keep transportation on the move. We have you covered!
